

James & Bywaters c. 1929 - 1963

James & Bywaters was an architectural partnership formed in London, England in c.1929 by [Charles Holloway James](#) (1893-1953) and [Stewart Frank Bywaters](#). In April 1947 the firm became [James & Bywaters and Rowland Pierce](#)

Projects by the partnership included Slough Town Hall (1936), City Hall in Norwich (1938), and Hertford County Hall (1940). The partnership Pierce was dissolved in 1947. It would seem that the practice then reverted to its original name, James & Bywaters. This name was retained until 1963 when it became Saunders Boston Architects.
