

Maclaren Sons & Soutar 1908 - 1920

Maclaren Sons & Soutar originated as J. Maclaren & Son, an architectural partnership formed by James Maclaren (1829-1893) and his son, George Gordon Maclaren (1856-1899) in Dundee in 1879. Following the death of James Maclaren in 1893, another son, John Turnbull Maclaren (1864-1948), returned from the USA where he had been working, and joined his brother as a partner in the practice which was renamed J. Maclaren & Sons. After the death of George Gordon Maclaren in 1899, John Turnbull Maclaren continued the business alone until 1908 when he took Charles Geddes Soutar (1878-1952) into partnership as Maclaren, Sons & Soutar. The practice had an office at 10 Reform Street, Scotland.

In 1920 the practice merged with J & F Salmond, a firm of civil engineers, land surveyors and architects based in Dundee, becoming Maclaren Soutar Salmond.
