

Scott, Giles Gilbert 1880 - 1960

Giles Gilbert Scott was born in Hampstead, London, on 9 November 1880. He came from a long architectural tradition. His father was the architect George Gilbert Scott, Jr. (1839-1897) and his grandfather was the architect [George Gilbert Scott](#) (1811-1878). Furthermore his younger brother, [Adrian Gilbert Scott](#) (1882-1963), became an architect as did his son, Richard Gilbert Scott. On leaving school in 1899 Giles Gilbert Scott was articled to the architect [Temple Lushington Moore](#) (1856-1920) for three years. He also worked as an assistant to [Thomas Garner](#) (1839-1906). Scott shot to fame in 1903 when, at the age of 22, he won the competition to design Liverpool's new Anglican Cathedral. The same year he set up in private practice. He subsequently designed numerous religious buildings usually in his own interpretation of the Gothic style.

During World War One, he served as a Major in the Royal Marines and was responsible for building and maintaining Britain's sea defences on the English Channel coast. He resumed his architectural practice after the war.

Scott was elected a Fellow of the Royal Institute of British Architects (FRIBA) in 1912 and was President of the Royal Institute of British Architects (PRIBA) in 1933-35. He was knighted for his services to architecture in 1924. Scott died in London on 8 February 1960.
