

Everard & Pick

Everard & Pick [now known as Pick Everard] was an an architectural practice established in Leicester, England in 1888 [or possibly a year or two earlier] by John Breedon Everard (1844-1923) and [Samuel Perkins Pick](#). (1859-1919) In the 1900s Everard's son, Bernard Everard (1879-1963), became a partner, at which point the name of the firm changed to Everard, Son & Pick. After further title changes as other partners joined the firm, the practice is was renamed Pick Everard.

* Wikipedia and the official website of Pick Everard [consulted 6 February 2021] give the date when the firm was founded as 1866. This is evidently inaccurate as Pick would have only been about 8 years old in 1866].
